

## PROGRAM DESIGN

This Program is funded to identify, recruit, and work with 102 first generation and modest income students and families who are identified as possessing the desire and motivation to attend college. Our program currently partners with seven area high schools located throughout Vermont. We are completely funded by the U.S. Department of Education. There is no cost to the participants of our program.

Upward Bound is funded through a grant from the United States Department of Education. The Program is currently funded at \$525,044 per year.

VERMONT STATE UNIVERSITY - JOHNSON
